Automated **ACA Compliance**

Do you have 50 or more part-time or full-time equivalent employees who are working at least 30 hours per week or 130 hours a month?

.....

If so, you are considered an Applicable Large Employer (ALE) and are subject to two provisions under the Affordable Care Act (ACA).

There's a lot to manage with ACA.

You need to notify and track employee responses, eligibility, and enrollment requests, and ensure all documentation is handled and stored correctly. **It's kind of a big deal.**

**Does it all feel too complicated
and cringe-worthy?
There's an easier way.**

Choose Efficient ACA.

Efficient ACA is a **100% cloud-based solution** that automates and streamlines the entire ACA compliance process.

**ACA compliance
is complicated.
Efficient ACA
handles complicated.**
