Work Opportunity Tax Credit (WOTC) Screening and Processing

Make WOTC Work for You

What is WOTC?

WOTC is a Federal tax credit available to employers who hire and retain veterans and individuals from other target groups with significant barriers to employment.

Employers can earn up to \$9,600 in tax credit per new hire. Companies that have Federal tax liability claim about \$1 billion in tax credits each year under the WOTC program.

The Business Challenge:

The WOTC forms 8850 & 9061 are complex and labor intensive. Applications must be submitted to the State Workforce Agency (SWA) within 28 days of hire. Hours and Wages for each certified employee must be tracked in order to calculate tax credit earnings. Supplemental documentation is often required along with WOTC applications. It is critical to manage the certification process timelines to prevent potential credits from being denied. Complications at each stage make the WOTC process tedious, cumbersome, and frustrating for employers.
